

Payment and Financial information

After School Care

Payments for after school care are drafted weekly typically on Tuesday/Wednesday for the week of care. This payment is drafted from the card on file that was provided during registration. Often times, the cards on file are compromised or they expire, and this is overlooked by parents. When tuition is drafted and the card on file is declined, an email will be sent to the account holder. You can then update the card on file by visiting the parent portal. Our staff will draft the payment when they see that a new card was placed on file for draft. Parents do not have the capability to make a payment on-line. This is done through our system.

Summer Camp Program

When registering for summer camp weeks, parents are allowed to only choose the weeks needed. The system totals all weeks and makes a balance on the account. A \$50 registration fee will be added upon registration. Payment for the camps will be drafted weekly on Monday/Tuesday for the week of care. If a child is registered for a week of camp, your account will be charged. The charge is not based on attendance. Our program is limited to a specific number of children each week and we plan as a team to accommodate the children and staff. Also, if the camp is full and you have not registered, you may not attend. It is a possibility that we may have a waiting list. You may get on a waiting list by sending an email through the parent portal.

Child Care Services

Champion Zone accepts CCS in our regular after school care programs as well as our Summer Camp Programs. Parents will need to be accepted into the CCS program and have a 2450 sent to Champion Zone from the client's caseworker before registration. Champion Zone will charge the DIFFERENCE between reimbursement rates from CCS and our regular tuition. Those payments will be drafted weekly from the card on file during registration. It is the parent's responsibility to stay current with CCS requirements, transfers and fees.
